CORPORATE PROFILE

AUREON INFRATECH

AUREON Infratech Private Limited

Civil Construction | Infrastructure Development | Integrated Site Services

BUILDING TODAY | FOR A STRONGER TOMORROW

A practical project partner for industrial, commercial and institutional environments.

AUREON Infratech brings together civil construction, infrastructure and site development, manpower supply, equipment mobilisation, facility support and project management assistance. Our engagements are shaped around the client's scope, site conditions, specifications and delivery requirements.

Formerly Benfracorp Private Limited

02 | COMPANY OVERVIEW

Who we are

AUREON Infratech is focused on supporting project owners, industrial facilities, commercial organisations and institutional clients through civil construction and execution, infrastructure development and integrated site services. Our operating approach emphasises clear scope definition, resource coordination, work-front readiness, execution communication and documentation appropriate to each assignment.

03 | SERVICE CAPABILITIES

Integrated services for site requirements

Civil Construction & Execution	Building and structural civil works, concrete, masonry, reinforcement-related activities, finishing and allied execution scopes.
Infrastructure & Site Development	Ground preparation, paving, drainage, internal roads, external development and associated civil infrastructure works.
Manpower Supply & Site Services	Project-specific skilled and semi-skilled workforce coordination, general manpower deployment and site support.
Project Support & Equipment Mobilisation	Resource and equipment mobilisation coordination, site logistics, work-front readiness and operational support.
Housekeeping & Facility Maintenance	Construction-site housekeeping, office and housing upkeep, routine facility support and service coordination.
PMC & Project Management Support	Planning, progress monitoring, reporting, documentation, coordination and project-controls assistance.

04 | CLIENT ENVIRONMENTS

Manufacturing and factories • Industrial facilities • Warehousing and logistics • Commercial campuses • Corporate offices • Institutional facilities • Infrastructure and external works

05 | DELIVERY APPROACH

Clarity before mobilisation. Coordination through delivery.

01. Understand — Review client requirements, site conditions, drawings, specifications and interfaces.

02. Define — Agree scope, deliverables, exclusions, resources, schedule and commercial terms.

03. Mobilise — Coordinate approved workforce, equipment, materials and site-readiness requirements.

04. Execute & Report — Coordinate site activities and provide progress communication and agreed documentation.

06 | SELECTED SITE WORKS

Photographic work records

Paver Block Lane Work [COMPLETED]
Interlocking paver block lane and external hardscape development.

Brickbat Soling & Ground Preparation [IN PROGRESS]
Ground preparation with brickbat soling visible across the work area.
